SUMMARY

Applied AI Engineer who ships production AI systems — not demos. 5+ years building software and automations, with multiple AI platforms running in production for real companies across Colombia & Peru. Strong in LLM application development (RAG, agentic tool-calling), document AI (OCR), Python/FastAPI backends and multi-tenant architecture.

EXPERIENCE

AI-First Software Engineer — AINEATECH Remote · 2023–Present

- Built a multi-tenant AI CRM (crm.prevensalud.pe): contextual LLM assistant (RAG, PII-free), OCR-over-WhatsApp invoice pipeline, automated PDF reporting and Celery automation. PostgreSQL row-level security.
- Built an agentic mobile health app whose AI coach operates the whole product via chat, orchestrating 13 tools (RAG over pgvector, vision meal logging, health projection).
- Built enterprise n8n automations with AI decisioning: support triage, lead scoring, invoice approval with fraud checks and human-in-the-loop.
- Implemented an LLM evaluation & observability harness (versioned datasets, metrics, LLM-as-judge, CI gating).
- Delivered production web & e-commerce platforms (prevensalud.pe, grupoalianzavital.com, pontebela.com.co).

TECHNICAL SKILLS

AI/LLM: LLMs (Claude/GPT) · RAG · Agentic AI / tool calling (LangChain/LangGraph) · Prompt engineering · LLM evaluation · OCR / Document AI · Vector DBs (pgvector) · Embeddings
Backend: Python · FastAPI (async) · REST APIs · PostgreSQL · Redis · Multi-tenant (RLS) · JWT/RBAC · Celery
Frontend/Mobile: React · Next.js · React Native · TypeScript · Tailwind
DevOps: Docker · CI/CD (GitHub Actions) · nginx · Linux/VPS
Languages: Spanish (native) · English (B1–B2, improving)

PROJECTS

- PrevenSalud AI CRM — github.com/Juanllenato/prevensalud-ai-crm
- Agentic AI Health App — github.com/Juanllenato/plataforma-bienestar-ai
- Enterprise AI Automations (n8n) — github.com/Juanllenato/n8n-workflows
- LLM Eval & Observability Harness — github.com/Juanllenato/llm-eval-harness

EDUCATION

Unidades Tecnológicas de Santander (UTS), Colombia

- Systems Engineering — in progress
- Technologist in Software Systems Development — completed
